OLIS-K

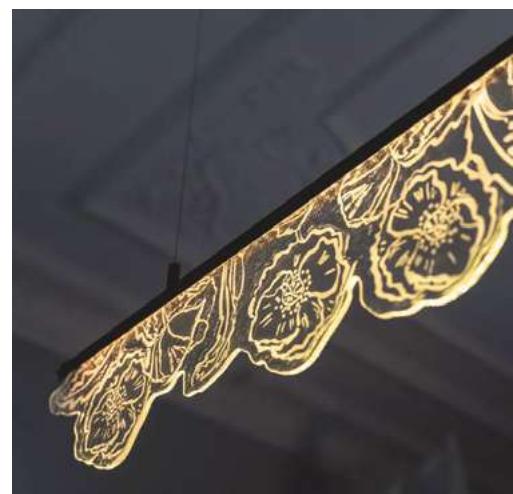

Beacon is an unusual light installation designed by a Pole, Karolina Hałatek, and shown during the famous festival of light and art in Riyadh, Saudi Arabia in 2021. The installation with LED lighting fixtures of the Polish brand KLUŚ has been entered in the Guinness Book of Records as the largest LED structure in the world with 272 160 light points.

Our modernistically crafted products are eagerly used for custom realisations coming out of the hands of designers and artists. The surface-mounted or suspended PDS-ZMG profile for main and decorative lighting was used in works by Izabela Kołwzan. These unparalleled artistic glass lamps are the result of combining the creativity of the designer with the functionality of the PDS-ZMG profile.
